

# Nutrition Services

2022-2023

The Nutrition Services department will continue to serve free meals to all students during the 2022-2023 school year. All in-person students may receive one breakfast and one lunch at no charge at all district middle and high schools. No application or registration is needed!

Ongoing disruptions throughout the supply chain coupled with persistent labor shortages have led to challenges in every geographic region and impact school districts of all sizes nation-wide, including ours.

Nutrition Services is taking several proactive steps to manage the challenges we are facing in our district, including:

- Organization of staff workload to support meal production and service
- Implementation of updated Nutrition Services hardware/software to improve the speed of service,
- Recruitment of talent to fill multiple current vacancies and staff training
- Streamlined menus

Please check for program updates at: [www.SDUHSDnutrition.com](http://www.SDUHSDnutrition.com) and consider joining the Nutrition Services Team.

Visit our program website at [www.SDUHSDnutrition.com](http://www.SDUHSDnutrition.com) link to job postings for substitutes and permanent positions.

SDUHSD Nutrition Services is committed to offering good value, high-quality menu options to our students. We look forward to working collaboratively with partners to create satisfying dining experiences as we continue to adapt to the current K-12 school nutrition environment.
